

Cast net and Dip net

Overview

Long time ago, villagers tried to utilize simple tools and adapted them for other uses as well as modified them to be more exquisite and usable. This artifact is called handicraft.

Dip net, one of Thai's handicraft, is a folk wisdom which is made by older people. To make this kind of net, people need a lot of expertise and experience. The uniqueness of Thai's dip net is soft, flexible and eco-friendly.

Materials and Equipment

1. Nylon tread
2. Round wood
3. Net needle
